

A decorative border surrounds the page, featuring colorful butterflies in shades of green, yellow, pink, and blue, interspersed with light green spiral patterns.

Elder Dental Program

If you or a loved one needs affordable oral health care, the Elder Dental Program may be able to help. We are a community-based, nonprofit program dedicated to helping local elders access quality dental care.

The program has a network of local dentists who volunteer to treat low-income elders at significantly reduced fees.

Who qualifies for the program? The Elder Dental Program serves low-income senior citizens who do not have dental insurance. Seniors may qualify for the program if they:

- are age 60 or over
- do not have dental insurance
- live in our program service area *
- have an annual income less than \$26,000 (\$35,000 for a couple)
- have savings less than \$20,540 (\$40,656 for a couple)
