Request for Light at 2097 Wheeler Street:

Mr. Joseph Pimental stated that he had reached out to the Board to request a street light be placed on the pole in front of his home. Mr. Pimental does not want to put an additional tax burden on his neighbors. Was told by National Grid that he had to go through the Electric Light District to request a light, could not go directly through the company.

The Board informed Mr. Pimental the process to have a light installed in front of his home. Abutters within 300' must be notified by certified mail. He will need to request a list of abutters from the Assessors office at a cost of \$25. Abutters will be allowed to voice their opinions to the Board. The decision as to whether a light will be added or denied will be made by the Commissioners of the Electric Light District.

The Board stated that any resident of the district can request a light directly from National Grid at their own expense. Homeowner would be responsible for the cost of the light. James Ready will email National Grid in regards to Mr. Pimental's request for a light at his own expense.
