- **Discuss/Review budget for coming year and upcoming expenses**

Current budget for this fiscal year is \$900. The committee had set aside funds from last year's budget that we planned to encumber and together with this year's funds, hire a marketing firm to assist with creating a video that we could use. At a previous meeting this Spring however the suggestion had been made to reach out to DR High School to see what help they may be able to contribute. Dan Higgins did contact them, and the High School has a 3-year marketing program for students. He spoke with the teacher in charge and arranged to meet with the students in April and discuss the proposal. Both the instructor and students were very excited about taking on the project. Given how late it was in the school year, the idea was that it would start right away with the Juniors and Seniors, understanding that the Seniors would be graduating soon. The project will then pick up next Fall with the same Juniors (now Seniors) and the new Juniors class. No definite time frame has been set but late

Winter 2025/early Spring 2026 would probably be the expected completion time. The High School will be doing this at no cost, so not only was there no longer a need to encumber last year's unspent funds, but we now have more options for use of this year's funding.

There was a general discussion as to whether the committee should shift its focus from assisting existing businesses to recruiting new business.

There was a general discussion about having a small networking event.
